

## **Letter of Commendation**

This letter is to show appreciation to Reed Aston, Tellie Sanders, Hal Sellers, and Willie Kirby, for the outstanding job that they did on a call to a one-car motor vehicle accident involving an individual that was entrapped and suffered a severe injury to his spine. Because of their management of this patient and cohesiveness with East Alabama Fire Department during extrication, this patient was able to receive definitive care and prevent him from being paralyzed.

This is the reason that these employees spend so much time during the year training and taking specialized courses to be prepared for calls such as this one.

To these four employees, I would like to show my appreciation and say “job well done”!

With much gratitude,

Tim Hughes  
EMS Director
